

Learn to Dive in Sydney

South Sydney - \$399

North Sydney - \$445

or

Central/West Sydney - \$399

from only
\$399 per person*

**Now is the time to take the leap and learn to dive!
Becoming an Open Water Diver is the start to a
lifetime of discovery and adventure in the wonderful
and exhilarating underwater world.**

As a certified Open Water Diver, you will gain the freedom to dive with a buddy to a depth of 18 metres independent of a professional. If you have already tried a Discover Scuba Diving experience, check with your instructor to see how credit from these courses may apply to the Open Water programme.

Theory

The knowledge and skills required to dive safely and comfortably will be covered using a combination of home study with manuals or e-Learning along with informal tutoring sessions with an instructor. The use of multiple choice quizzes ensures that students understand the points covered in each section.

Pool/Confined Water Training

These sessions will introduce you, the student, to the equipment and skills that will ensure each diver will be able to dive safely with buddies on completion of the course. Small class sizes are used so that students gain the maximum benefit from these sessions.

Open Water Dive Training

Once the academics and confined water sessions have been completed and the student is comfortable with the skills learnt, the diving moves to the sea, where under the watchful eye of instructors and divemasters the student puts the skills already learnt into practice. These dives also give the students a chance to participate in diving for fun since time is put aside for enjoying pleasure dives. There are four Open Water dives required, which will be conducted in and around the Sydney area.

Requirements
